Dear Mr Taylor

I am writing to thank your company for sponsoring South Axholme Academy in order to fund teaching resources for the school. As a result of your sponsorship, D.A.T.A. have provided the school with a pack of 30 drugs and alcohol awareness books for us to use as a teaching aid when delivering lessons on drugs education.

As we are constantly updating the resources for drugs education, we will begin using these resources next week as part of the General Studies programme for the Year 9 students. The booklets that have been created are extremely informative and the layout is easily understandable for students.

The booklets contain up-to-date information relating to legal highs and the effects of these drugs. The booklets also contain information relating to drugs and alcohol organisations that are able to offer help and advice. The information provided in the booklets will certainly assist our teaching staff in being able to provide effective drugs education for our students.

Thank you once again for your generosity.

Yours sincerely

N. Wilkinson
